

September 2018

Dear Parent/Carer

At Skipton Girls High School, we are delighted to be able to offer students a broad range of practical subjects within the CREATE faculty (Computing, Robotics, Engineering, Art and Enterprise).

Students within the faculty study Design Technology, Engineering, Food Technology, Computing and Art and Design.

To enable students to be able to experience as wide a range of materials, skills, processes and techniques as possible, whilst ensuring we are able to create work the students will be really motivated by; we ask all parents of students in Years 7 to 9 working in the CREATE faculty for a voluntary contribution of **£20-00** at the beginning of each academic year. This donation will support the cost of consumable materials and resources used by students to produce objects and artefacts, which they are able to keep on completion of their projects. Without these donations we would not be able to be as ambitious as we want to be with the work students produce.

In order to make this donation, please log on to Parent Pay where you will see the CREATE contribution itemised. If you do not know your username and password please contact the Finance Team on 01756 707600.

Many thanks in anticipation of your continued support of your student's work and progress at SGHS.

Yours faithfully

Ms Jackie Smith

Faculty Learning Director
